

KSS Shipping Services Private Ltd.

Marine Consultancy, Repair and NDT Services To Shipping & Offshore Industry

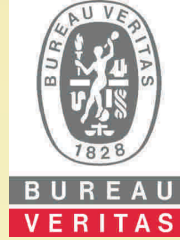

Our commitment to quality service is our strength and future.

CLASS APPROVED-ULTRASONIC THICKNESS GAUGING

ISO 9001

RINA

We are one of the leading company in India for carrying out Thickness Measurement of Hull structure towards Owners-steel assessment, CAP and Class surveys as required by various Classification societies.

Our technicians also assist in supervision of steel repairs.

The technicians have experience on Oil/Chemical/LPG Tankers, Bulk Carriers, Container, Reefer, General Cargo vessels. The technicians have passport, CDC, STCW courses, medical, insurance as required to carry out job anywhere in the world.

Ultrasonic Hatch Leak Detection

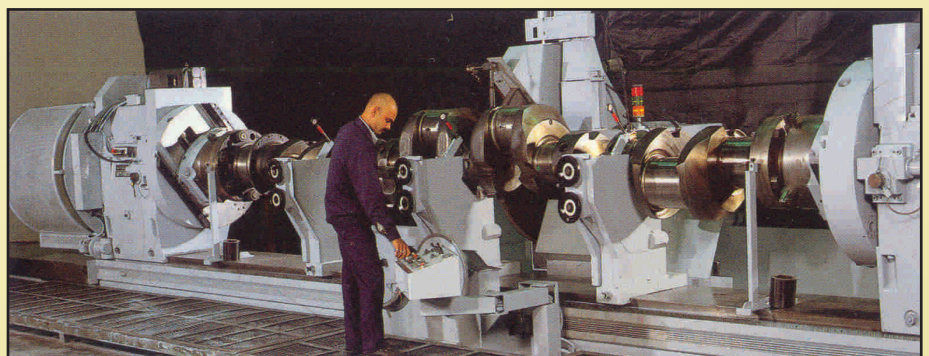

Sea water ingress is one of the major source of damage to cargo resulting in expensive insurance claims. Our qualified technicians use Cygnus Hatch sure for effectively evaluating hatch seals.

We offer other NDT inspection services in the following streams:

- Ultrasonic Flaw Detection
- MPI/LPT
- Coating Thickness Measurement
- Hardness Testing
- Remote Visual Inspection / Boroscopy Services
- In-Service boiler inspection through EMAT

We endeavor to support and fulfill our customers' varied testing and inspection needs and firmly believe in offering complete solutions.

KSS Shipping Services Private Limited was established in 2004 to provide services to shipping and offshore industry.

We have a team of senior well experienced marine professionals. Our staff is with vast knowledge of various aspects in shipping, efficient, well aware of quality requirements and contacts throughout the industry.

While offering our services, we emphasize on commitment for delivery of service in schedule time, quality, competitive rates. KSS Shipping Services covers a wide range of activities offering its clients various Marine Services required. Our vision is to build long term relations with our clients.

Key Person:

Mr. Sandeep Bhargava is the founder and managing director of the company.

He graduated from premier Marine Engineering College (DMET) in 1987.

After graduation, while at sea he progressed to Chief Engineer and spent most time on crude/ product tankers for over 11 years. He worked ashore as Engineer & Ship Surveyor, Mercantile Marine Department, DG Shipping, Government of India for 2 years till 2001. Later worked as Technical Superintendent for major Hong Kong based ship management company from 2001 till 2003 and in 2004 further played key role to manage their vessel under Indian flag for major Indian Ship Owner.

We are committed towards our customer's expectations. We value and respect their valuable suggestions, their demands for solutions and services of complex applications, assistance in special projects and in identifying important trends from time to time.
